

CO.AS.IT. MUSEO ITALIANO

UNIT 2 RAGS TO RICHES (Year 7-8)

Curriculum alignment: Humanities and Intercultural Capability

Victorian Curriculum – Levels 7 and 8 content descriptions

History:

Levels 7 and 8	
Historical Knowledge	
Community histories <i>(Australia as a Nation)</i>	The significance and importance of conserving the remains and heritage of the past. (VCHHK115)
History concepts and skills	
Using historical sources as evidence	Analyse and corroborate sources and ask questions about their accuracy, usefulness and reliability. (VCHHC099)
	Analyse the different perspectives of people in the past. (VCHHC100)
	Explain different historical interpretations and contested debates about the past, (VCHHC101)
Continuity and change	Identify and explain patterns of continuity and change in society to the way of life. (VCHHC102)
Historical significance	Evaluate the role and achievement of a significant individual, development and/or cultural achievement that led to progress. (VCHHC104)

Civics and Citizenship -

Levels 7 and 8
Citizenship, Diversity and Identity
Describe how Australia is a secular nation and a multi-faith society. (VCCCC024)
Identify how values can promote cohesion within Australian society, including the values of freedom, respect, inclusion, civility, responsibility, compassion, equality and a 'fair go' (VCCCC025)

Explain how groups express their identities, including religious and cultural identity, and how this expression can influence their perceptions of others and others' perception of them. (VCCCC026)

Examine how national identity can shape a sense of belonging and examine different perspectives about Australia's national identity, including Aboriginal and Torres Strait Islander peoples' perspectives. (VCCCC027)

Intercultural Capability

Levels 7 and 8
Cultural Practices
Analyse the dynamic nature of own and others cultural practices in a range of contexts (VCICCB013)
Examine how various cultural groups are represented, by whom they are represented, and comment on the purpose and effect of these representations (VCICCB014)
Cultural Diversity
Identify the challenges and benefits of living and working in a culturally diverse society (VICCD015)
Evaluate the ways in which the community demonstrates the value it places on cultural diversity, and why this valuing of cultural diversity is important to the community (VICCD016)

UNIT 2: RAGS TO RICHES

Rationale:

This learning sequence encourages students to enhance their understanding of the historical, cultural, and social significance of selected artefacts found in the Museo Italiano collection. The museum artefacts are examined for their significance to the Italian migration story and how they relate in a contemporary Australian context. Examining the relationship between the past and present provides students with an understanding of continuity and change as seen through personal and community contributions to civic life.

Objectives:

Have students engage with the interactive website, "Snapshots" ([www.http://.....](http://.....)). The website content is organised under three main themes (1. Innovation; 2. Narrative; 3. Enterprise). Here, students can source information provided by leading representatives of each of the five museums about the selected cultural artefacts and their significance, past and present. In this unit a leading representative explains how Italian history, customs and enterprise have helped shape Australia's identity in the world.

Teaching and Learning cycle	Student activity
<p>Engagement</p> <p>Invite students to work in pairs to complete the '<i>I see, I Think, I Wonder</i>' worksheet in respect to the two artefact illustrations. Once students complete all sections, have each pair share their responses with another pair, and then with the class.</p> <p>As a class, revisit the illustrated artefacts, and collate feedback from the students about their responses to the questions highlighted for the activity, e.g.,</p> <p>Describe what you see.</p> <ul style="list-style-type: none"> • What is noticeable about the shape, colour, texture, and special features of each artefact? • What material/s were they made from? • What decorations appear on the artefacts? • What are the differences between the artefacts? <p>Explain what you think.</p> <ul style="list-style-type: none"> • How were the artefacts made? • When were they created? • What were they used for? 	<ul style="list-style-type: none"> • I see, I Think, I Wonder

	<ul style="list-style-type: none"> • Who would use these artefacts? <p>Clarify what you wonder.</p> <ul style="list-style-type: none"> • What does the term ‘Logos’ mean? • What is the significance of these artefacts? Consider their value within contexts - historical, social, cultural, and commercial. • How are the artefacts related? • Where would I find these artefacts today? • Are these artefacts still used today? <p>Visit the Snapshots website (http://:...) to locate the interview with Marco Fedi. As a class, listen to him speak about the importance of each artefact and how they relate to Italian-Australian culture and identity.</p>	
<p>Building knowledge</p>	<p>Visit the Museo Italiano to locate the artefacts and learn about the contribution of Italian-Australians in the Melbourne community. Alternatively, visit the Museo Italiano and/or the CO.AS.IT websites and have students complete the ‘Rags to Riches, Women’s work’ worksheet. The worksheet lists significant dates, images and information about how Italian people, particularly women, contributed to the clothing and textile industry in Australia.</p> <p>Have students consider the status of women and their types of work over time. Question the class about their initial thoughts and prior knowledge about women’s work. Have students complete the first section of the ‘I used to think – Now I think’ template, therefore the ‘I used to know’ section with their ideas about the types of work women did in the past, and in the present.</p> <p>Divide the class into two groups, and pair students within the groups. In negotiation with the group, ask students to research aspects of the following topics. Each group should develop a contextual framework for their topic prior to conducting further research. Therefore, each pair will contribute a selection of information (text and images of artefacts) to the overall topic:</p> <ol style="list-style-type: none"> 1. Group 1: Cultural responsibilities and the status of Italian women in the past (e.g 1950’s) to present. 2. Group 2: Technologies that industrialised and changed Italian women’s work <p>Each group should complete:</p> <ul style="list-style-type: none"> • A timeline about the historical development in respect to their topic. • Concise explanations of significant events, people, and/or inventions (social/cultural/technological/economic, etc.) • An album of primary & secondary sources with relevant information (e.g., images/illustrations, letters, posters, etc.). Include statistics on the number of non-English speaking/ migrant (Italian) women working in the Textile manufacturing industry. (Refer to Alcorso, C. (1991) Non-English speaking background immigrant women in the workforce: https://ro.uow.edu.au/cmsworkpapers/5/) <p>Have groups collate their information and discuss implications in respect to how technologies have changed the work of women overtime. Invite students to complete the second section of the ‘I used to think – Now I think’ template, therefore, the ‘Now I Think’ section.</p>	<ul style="list-style-type: none"> • Thinking Map • Timeline/artefact album • Rags to Riches, Women’s work template • I used to think – Now I think
<p>Transformation</p>	<p>Revisit the concept of this unit and have students consider if the status of migrant women and their work have changed since immigrating to Australia. Therefore, how the society and culture of Australia was changed by Italian</p>	<ul style="list-style-type: none"> • Thinking Map • Timeline/artefact album

	<p>women, and how Italian society and culture was changed by the Australian context.</p> <p>Group 1: The evolution of work for Italian-Australian women (e.g., the clothing industry in Victoria).</p> <p>Group 2: Famous Italian-Australian women (e.g., fashion designers, past and present).</p> <p>No two pairs should use the same image or information. Each pair should locate and collate images and information for their part/context of the group's topic that will be added to an online class catalogue/photographic exhibition. Each group will be responsible for including a brief overview of their focus topic in the catalogue related to Italian-Australian women's work in the clothing industry, and how the status of women changed overtime. Remind students to use a Thinking Map to tease out ideas related to contexts when researching information include points in reference to historical, social, cultural, economic, technological, philosophical, etc. aspects of the topics.</p> <p>Each group should complete:</p> <ul style="list-style-type: none"> • A timeline about the historical development in respect to their topic. • Concise explanations of significant events, people, and/or inventions (social/cultural/technological/economic, etc.) • An album of primary and secondary sources with relevant information, (e.g., images/illustrations, letters, posters, etc.) <p>As a class discuss the significance of women's work and how they now have a better understanding of how (migrant) women contributed to the clothing/textile industry in Australia, and how this industry became world-class. Display the exhibition catalogue and all sections in the classroom/virtually.</p>	
<p>Presentation</p>	<p>Instruct the class that they will all contribute information and evidence to produce a class online exhibition and/or catalogue titled, 'Rags to Riches'. The concept of the exhibition is focused on the work of Italian women, who worked in the 'rag trade' in Melbourne. The class groups have already researched information that will contribute to the exhibition catalogue and artefacts didactics.</p> <p>Each group will contribute:</p> <ul style="list-style-type: none"> • Two-four paragraphs to the catalogue introduction covering historical, cultural, social, economic, and philosophical contexts. • 10 x artefacts (images, posters, letters, advertisements, etc. with didactic information (dates, names, place, etc.)) <p>The organisation of the exhibition artefacts should tell a story for the audience that reinforces the concepts and themes of the exhibition. Share the exhibition catalogue with other classes and families.</p>	<ul style="list-style-type: none"> • Catalogue template
<p>Reflection</p>	<p>Evaluate student knowledge by using Quizlet to generate multiple-choice questions about Italian-Australian history, society and culture, and their contribution to industry and enterprise in Victoria.</p> <p>Have students review their previously developed, <i>I used to think – Now I think</i>, and add further information about what they now know about Italian-Australian history, culture and innovations.</p>	<ul style="list-style-type: none"> • Quizlet • I used to think – Now I think

	Take students on excursion to the Museo Italiano, or a cultural museum in their town or region that features artefacts from Italian-Australian culture. Direct students to further resources on this topic.

FOUR ITALIAN-AUSTRALIAN FASHION ICONS

1. **Carla Zampatti (19 May 1942 – 3 April 2021)** was an Italian-born Australian fashion designer and businesswoman, and executive chair of the fashion label Carla Zampatti Pty Ltd. A high-end designer with big dreams and a determined attitude from a very young age, became one of Australia's most influential fashion designers. Making a national launch in 1967, followed by the establishment of [Carla Zampatti Ltd](https://www.carlazampatti.com/) in 1970 and the opening of her first boutique in Surry Hills in 1972, **Zampatti** was one of the first Australian designers to expand her collections to swimwear in 1973, as well as sunglasses and perfumes. Capturing the women's market, **Zampatti** was offered the rare honour to design the 1985 Ford Laser and the 1987 Laser and Meteor cars that sold exceptionally well. Receiving the highest award in the Australian Fashion Industry – *Australian Fashion Laureate* – in 2008, it's easy to see her pure talent and the passion she has for this industry, still evident today.

3. **Bettina Liano (1966 -)** [Liano is one of four children of Italian immigrant parents. She grew up in Brighton, Victoria.

Liano's career in fashion started by chance in the early 1980s when [Melbourne](#) retailer Joe Silitto noticed a dress that she had made for her sister, and asked about selling the design. In 1983, Liano and her mother opened a shop, "Sempre L'Unico", in Toorak, Melbourne. The family business, which included Liano's two sisters, did well and they opened two more shops. After leaving Sempre L'Unico to start her own business, Liano, with her husband Roy Christou, launched the Bettina Liano label in 1989. Two years later they started making jeans – "spray-on-tight, hipster jeans", in contrast to the loose-fitting styles of the time – which became one of her most popular items. In 1999, Liano won a [Federal Court](#) injunction preventing Satch Clothing from selling clothes that had been made using her design in breach of [copyright](#). She was one of the first designers in Australia to take such legal action to protect her [intellectual property](#). She also won settlements against other stores copying of her designs. In 2005, Liano designed a collection of clothes for young girls, sold exclusively by [Myer](#), under the children's clothing brand Barbie. In 2010, Liano launched a [diffusion label](#) "T by Bettina Liano", exclusive to Myer. She also won [Cosmopolitan](#) magazine's Fun Fearless Female award in the Designer category. In 2011, the business went into [administration](#), but in 2012 recovered after striking a licensing agreement with the Sydney-based Apparel Group. Liano retained control of the business. At its peak, Liano had eight stores in Australia. In February 2013, Liano closed all except one of her Australian stores and opened one in [SoHo, Manhattan](#). In September 2013 the business again went into administration. Subsequently the "Bettina Liano", "T by Bettina Liano" and "O Jeans" trademarks were acquired by the Apparel Group. In 2015 Liano created a new label "BYBL" ("By Bettina Liano").

4. **Bruno Schiavi (1972 -)** is an Australian fashion designer and businessman. His father worked for [Italian embassies](#); the family moved several times before eventually settling in Australia. Schiavi's university studies were in business and marketing. He worked at [Target](#) for eight years, starting in the 1980s. In 1995, he and his mother launched Jupi Corporation to sell women's underwear over the internet. In 1998 Schiavi invented a sock with a [zippered](#) pocket and sold it through [Gowings](#). This sock fuelled the growth of his company,

which in 2004 had sales of AUD 3 million, mostly from Schiavi-designed underwear. In 2003 Schiavi began working with celebrities when he had *Big Brother* contestants promote underwear designed by him. He has since collaborated with Priscilla Presley, Brett Lee, Janet Jackson, and the Kardashians. In the mid-2000s, Schiavi's company expanded to Los Angeles. Many of his products, including the Kardashian Kollection, are sold for the mass market through department stores like Sears. By 2013 Jupi Corporation had a turnover of \$75 million, 60 percent of that from outside Australia. On 12 August 2013 Schiavi launched One Dress a Day, an online store that sells a new Schiavi-designed dress every day. In 2015 Schiavi expanded into children's clothing, developing a *Kardashian Kids* line for his Kardashian Kollection brand when the Kardashians had children. The new brand was a commercial success, with 86 percent of the stock sold within 72 hours of the launch in stores and online via Babies R Us. Following Schiavi's usual business model of mass market sales, the Kardashian Kids brand is sold in Woolworths Big W stores in Australia.
